

## Sounds and Stories:

I have included a story for each sound. *(The stories are saved in a separate folder)*

If the story is too difficult for your child, read it with them and ask them to listen for the sounds.

## Sample Activity

Introduce the sound *ai*

- Have a look at the *ai* poster with your child.
- Chat about words that have the sound *ai* in them.
- Write the *ai* words from the poster on paper so they are easy to read.
- Give your child a few minutes to write the words using the *Look, Say, Cover, Write, Check* Method.
- Make it a fun activity: 'Beat the Clock' see how many *ai* words they can write in one minute.
- Read the *ai* story and identify all the *ai* words in the story.
- I have included a story for each sound. The stories are saved in a separate folder.
- *If you print out the story, ask your child to circle the ai sound when they see it.*
